

GUIDE 2024
PRODUCTS AND SYSTEMS
APPLIED

2024

This document is dedicated to those looking for specialized advanced heating, air conditioning, air renewal and air purification solutions.

Solutions able to increase the comfort level in the places where we live, work and spend our free time.

Complete year round systems, focused on substantial energy savings and less dependency on the fossil fuels used by traditional HVAC solutions, such as natural gas or oil.

INSPIRING SOLUTIONS

This Guide is printed every year and presents all Clivet's products with the aim of providing a basis for decisions and evaluations.

More detailed information, updated regularly, is available in the "SYSTEMS AND PRODUCTS" area at www.clivet.com and on Clivet Apps, where they can be downloaded free of charge.

To keep up to date with Clivet news, follow us on our social networks:

ALWAYS READY
FOR THE FUTURE

INSPIRING SOLUTIONS

For over 30 years of working on the design, manufacturing and distribution of air conditioning and handling systems, combining high efficiency with minimal environmental impact, Clivet has developed solutions to ensure sustainable comfort and the well-being of people and the environment. Designing and developing year-round air conditioning solutions with innovative technologies are part of Clivet's DNA, which means the company has always been ready for the future.

COMFORT FOR THE PLANET & PEOPLE

OUR VALUES

IN THE RESIDENTIAL, COMMERCIAL AND INDUSTRIAL SECTORS

Increasing comfort, saving energy and providing customers with the best value for the entire life cycle of the system: these are the values that inspire our systems for the residential, services and industrial sectors.

Hotels

Cinemas

SPECIALISED SYSTEMS for any application and climate condition

Today, buildings have to deliver an elevated and constant standard of well-being, regardless of the outside conditions.

Not all buildings are alike: depending on their use, there are considerable differences in terms of load intensity, simultaneous requests for hot and chilled water, domestic hot water production and air renewal.

That is why Clivet has created a series of specialised system solutions for applications that meet the specific needs of different buildings by optimising the overall efficiency in relation to traditional systems (boiler, chiller, AHU).

Clivet's specialised systems simplify the design and installation work, improve the control of the entire system, reduce the environmental impact and, at the same time, optimise the initial investment, reduce running costs, increasing the building's energy rating and therefore its value on the market.

Industry

CLIVET PRINCIPLES

for the building
evaluation

All Clivet systems are based on six key principles that make Clivet's products and systems unique.

These principles are the basis for making application-specific systems, which have always been part of Clivet's DNA.

They represent the foundation on which Clivet has built its new way of looking at systems, thereby becoming the reference for sustainable systems of the future.

Heat pump technology

Heat pumps are the technology of the future since they are significantly more efficient than traditional combustion systems:

- ✓ **Reductions of 50% in Primary Energy, CO₂ and Running Costs**
- ✓ **Extensive use of Renewable Energy**

Thanks to heat pumps, Clivet's systems guarantee:

- ✓ A single system for both heating and cooling
- ✓ Controlled mechanical ventilation with innovative thermodynamic recovery
- ✓ Free production of domestic hot water in summer
- ✓ Simultaneous heating and cooling to fulfil simultaneous loads

Importance of air renewal

The quality of air inside modern airtight buildings is undermined by a number of pollutants. The controlled mechanical ventilation system is essential to creating a more liveable environment.

Clivet's stand-alone system with thermodynamic energy recovery dedicated to ventilation has the following benefits:

- ✓ It recovers energy both in winter and in summer
- ✓ Reduces the load of outdoor air with a more efficient system and provides more energy for the rooms
- ✓ Reduces the capacity of the main generators by limiting their operation to seasonal peaks
- ✓ Dehumidifies in summer

High Seasonal efficiency

ZEPHIR³, Office Building in London, case study

Seasonal efficiency ensures the best way of understanding how energy is used when choosing the system to ensure year-round comfort.

Every application has different needs which vary depending on multiple factors, including different indoor and outdoor climatic conditions, crowding and thermal loads.

Clivet makes systems designed to meet the specific needs of every single application, thereby optimising the use of the system's resources to reach top seasonal efficiency levels thanks to:

- ✓ One systemic solution
- ✓ Use of the most favourable resources
- ✓ Full control over the system
- ✓ Continuous capacity modulation

Multifunction

Clivet's multifunction systems include all the functions to ensure year-round comfort. They optimise the solution based on the needs of the various applications and integrate it in specialised products and in complete dedicated systems:

- ✓ Heating
- ✓ Cooling
- ✓ Domestic hot water
- ✓ Air renewal and purification
- ✓ Dehumidification

Decentralization

Example of floor-based decentralisation

In developing Clivet products and systems one aspect that was given great attention was how to rationalise the choices in terms of design and construction, which could affect the system's running costs and environmental impact for its entire life cycle.

Many years ago, Clivet successfully developed the principle of generating energy as close as possible to where it needs to be used:

- ✓ Modular systems that are active only where and when required
- ✓ Reduction or complete elimination of auxiliary consumption (for instance, pumping energy)
- ✓ Stand-alone system
- ✓ Easy to maintain and handle
- ✓ Adapts to the needs of the system

Integrated systems

Clivet designs its systems by integrating all the services required for each application.

The system's elements, optimised and industrially processed to work together, guarantee the highest efficiency and reliability.

- ✓ Simplified design and installation
- ✓ Lower investment costs
- ✓ Quality of the systems
- ✓ Guaranteed performance

In residential, commercial and industrial buildings, the air conditioning system is the main source of energy consumption, accounting for almost half of the building's total consumption. There is an increasing need for an energy transition as the effect of climate change is growing.

Clivet has decided to play a key role by designing and promoting new technological solutions to improve the efficiency of buildings and significantly reduce its carbon footprint for increasingly sustainable installations.

The optimisation system for the commercial and industrial sector

Optimising the operation of HVAC systems allows the efficiency of the plants to be maximised in the various working conditions, guaranteeing the reduction of energy consumption and ensuring continuity of operation in the production and distribution of thermo-cooling energy.

Clivet's **INTELLIPLANT** solution manages all the elements of medium and large hydronic systems, guaranteeing the best operating conditions for the lowest possible energy consumption.

Developed entirely by Clivet specialists, Intelliplant makes it possible to achieve the maximum efficiency of the system and the units it interfaces with, thanks to algorithms derived from Clivet know-how that make better use of the machine control logics than the most common generalist solutions on the market.

The control system for the residential sector

A comfortable living environment is important to ensure your health and wellbeing.

Control4 NRG coordinates all the components of your system, optimising the performance and operation of the units and generating the right amount of energy only where and when needed... to ensure that everyone is happy.

Control4 NRG is designed to integrate with the most advanced technologies used for the production of renewable energy, acquiring the energy produced by the photovoltaic system and the energy used by the air conditioning system and organising the display of energy profiles and self-consumption levels.

Control4 NRG ensures Class A operation according to the most stringent requirements concerning the energy rating of buildings.

The cloud-based remote monitoring and management system for all Clivet systems

Clivet Eye is the Cloud-based monitoring system for remote management from smartphones, tablets and PCs of air conditioning, heating, air renewal and domestic hot water production units and systems.

The Clivet Eye interface allows you to access your system remotely. It combines the immediacy and ease of use of an app with advanced "data analytics" functions that can be used with a PC and are typical of a control environment designed for professional use.

Clivet Eye's map allows you to identify where Systems are and access them in real time, easily and intuitively highlighting the related operating conditions.

Event notifications promptly warn of any System malfunctions.

CLIVET COMBINES THE BEST TECHNOLOGY

with an excellent product quality and performance certification system

The innovation for which Clivet has always stood out, is supported by an industrial framework that has adopted the standards envisaged by ISO 9001, since 1996, guaranteeing a quality management system designed to control company processes so that they are targeted at improving the efficacy and efficiency of the organisation, as well as at client satisfaction.

In 2021 the Innovation Centre, Clivet's new centre for technological innovation, was officially opened with two new test rooms where Clivet can carry out functional, performance, acoustic, vibration and stress tests, with air temperatures from -20°C to +60°C, for units up to 2.5 MW with new refrigerants with a low environmental impact. Customers can attend the tests both at the Innovation Centre and online.

Clivet uses latest generation sheet metal folding, press and cutting machines for the mechanical production of its components. High product quality standards are also guaranteed by the use of patented electronic controls.

Clivet only uses non-toxic and low environmental impact alloys for soldering, insulation and gases that comply with the strictest European standards, and the best components available on the market.

They optimise the solution based on the needs of the **various applications** and integrate it in specialised products and in complete dedicated systems:

With the aim of providing Customer satisfaction, Clivet S.p.A. has supplemented and certified its Quality, Environment and Safety Management Systems, in accordance with the ISO 9001, ISO 14001 and ISO 45001 International Standards.

Clivet is committed in promoting the green building principles and has become a member of GBC Italia. This organization collaborates with **GBC Italia**, the U.S. nonprofit organization that promotes worldwide the **LEED®** system of independent certification.

In 2015, Clivet became a partner of **CasaClima**, as a result, Clivet is now part of a network of companies renowned for their technical expertise and constant focus on sustainable home management.

Where applicable.

<https://www.agenziacasaclima.it/en>

KEYMARK is a mark recognized in many European countries for the provision of incentives for the installation of heat pumps for room heating and the production of domestic hot water.

The countries that recognize the mark and the Certified Products are available on

www.heatpumpkeymark.com

Where applicable.

Clivet participates in the EUROVENT "Liquid Chilling Packages and Hydronic Heat Pumps", "Rooftops", "Air Handling Units", "Fan Coil Units" and "VRF" Certification programmes. The products concerned feature in the EUROVENT guide to certified products and on the website www.eurovent-certification.com. The programmes cover up to the limits set by the purpose of each programme.

Where applicable.

The wide range of Clivet products and complete systems comply with the requirements of the implementing measures for ErP (Energy related Products) Directives 2009/125/EC (Eco-design) and 2010/30/EU (Energy labelling), whose purpose is to reduce the energy consumption of products for heating, cooling, ventilation and hot water production, encouraging the user towards energy-efficient choices.

Directives 2009/125/EC and 2010/30/EU include the following Regulations: (EU) 206/2012, (EU) 626/2011; (EU) 811/2013, (EU) 812/2013, (EU) 813/2013, (EU) 814/2013; (EU) 1253/2014, (EU) 1254/2014; (EU) 2016/2281.

Clivet is involved in the BEYOND GREEN project to promote sustainability and the circular economy together with the other members of SAFE, the consortium system for the circular economy which works to raise public awareness regarding environmental issues, management and valorisation waste, education and training on environmental protection, research on environmental protection.

NEW PRODUCT

Sheen EVO 2.0

Reversible heat pump

Air cooled

Outdoor installation

Capacity from 24,1 to 128 kW

- ✓ Full inverter technology with scroll or rotary compressors
- ✓ High temperature solution for harsh climates
- ✓ Refrigerant R32 - GWP = 675
- ✓ Excellence version with very high seasonal efficiency, Premium version with high seasonal efficiency, with extremely compact dimensions
- ✓ Hot water up to 60°C, chilled water down to 0°C, operation at -20°C
- ✓ Two acoustic levels: standard and super-silenced
- ✓ Compatible with Control4 NRG, photovoltaic system, solar thermal system and Smart Grid
- ✓ Available in the Hybrid version in combination with a condensing boiler for instant DHW production

NEW PRODUCT

ELFOEnergy Sheen EVO

Liquid chiller

Air cooled

Outdoor installation

Capacity from 43,0 to 131 kW

- ✓ Full inverter technology with scroll or rotary compressors
- ✓ First investment driven and refurbishment applications
- ✓ Refrigerant R32 - GWP = 675
- ✓ High seasonal efficiency
- ✓ Low water temperature down to -8°C
- ✓ Three acoustic configurations: standard, silenced and super-silenced
- ✓ Modular operation management, up to 16 units in cascade

Clivet participates in the EUROVENT "Liquid Chilling Packages and Hydronic Heat Pumps". The products concerned feature on the website www.eurovent-certification.com

NEW PRODUCT

Large EVO FC

Liquid chiller with FREE-COOLING

Air cooled

Outdoor installation

Capacity from 115 to 233 kW

- ✓ Full inverter technology with scroll or rotary compressors
- ✓ Solution for cold climates, versatile applications with modular concept
- ✓ Refrigerant R32 - GWP = 675
- ✓ Operation down to -25°C outdoor air temperature, low water temperature down to -8°C
- ✓ Direct Free cooling active at air temperatures above 0°C
- ✓ Two acoustic levels: standard and super-silenced
- ✓ Modular operation management, up to 8 units in cascade
- ✓ Integrated hydronic assembly and system tank

NEW PRODUCT

THUNDER

Reversible heat pump

Air cooled

Outdoor installation

Capacity from 34,9 to 72,7 kW

- ✓ Full inverter technology with scroll compressors
- ✓ High-temperature solution with modular approach
- ✓ Natural and environmentally friendly refrigerant R290 - GWP = 3
- ✓ High full load and seasonal efficiency with compact dimensions
- ✓ Hot water up to 75°C and wide operating range from -20°C to +42°C
- ✓ Three acoustic levels: standard, silenced and super-silenced
- ✓ Modular design for up to 16 units in parallel (reduced installation space, enhanced system efficiency)

(4) TER = (Cooling capacity + Heating capacity) / (Total power input)

(5) Sound pressure levels are referred to units operating at nominal load in nominal conditions. Measurements are carried out accordingly to UNI EN ISO 9614-1 at nominal standard conditions defined in respective regulations: EU 2016/2281, UE 813/2013, UE 811/2013

(6) Data calculated according to the EN 14825:2018 Regulation

The Product is compliant with the Erp (Energy Related Products) European Directive. It includes the Commission delegated Regulation (EU) No 811/2013 (rated heat output ≤70 kW at specified reference conditions), the Commission delegated Regulation (EU) No 813/2013 (rated heat output ≤400 kW at specified reference conditions).

HYDRONIC

accessories

CCCA	Copper / aluminium condenser coil with acrylic lining
CCCA1	Condenser coil with Aluminium Energy Guard DCC treatment
HYG1	Hydronic assembly with 1 ON/OFF pump
HYG2	Hydronic assembly with 2 ON/OFF pumps
VARYP	VARYFLOW + (2 inverter pumps)
HYGR1V	Recovery side hydronic unit with 1 inverter pump
HYGU1V	User side hydronic group with 1 inverter pump
ACC	Storage tank (sizes 35.2÷45.2)
VACSR	Total recovery side DHW switching valve
HEDIF	Diffuser for high efficiency axial fan
CMSC10	Serial communication module for LonWorks supervisor
CMSC8	Serial communication module for BACnet supervisor
CMSC9	Serial communication module for Modbus supervisor
CMMBX	Serial communication module to supervisor (Modbus)

CMSLWX	LonWorks serial communication module
BACX	BACnet serial communication module
MF2	Multi-function phase monitor
SFSTR4N	Disposal for inrush current reduction, for unit 400/3/50+N
RCTX	Remote control
MHP	High and low pressure gauges
MHPX	High and low pressure gauges
PGFC	Finned coil protection grill
PGFCX	Finned coil protection grill
AVIBX	Anti-vibration mount support
IFWX	Steel mesh strainer on the water side
PFCP	Power factor correction capacitors (cosfi > 0.9)
GBL+F	Packaging with wooden cage + fumigation

Accessories whose code ends with "X" are supplied separately

ELFOEnergy Magnum MF

Multi-purpose reversible heat pump

Air cooled

Outdoor installation

Capacity from 139 to 321 kW

- ✓ Scroll compressors and phase-cutting fans type
- ✓ Polyvalent technology configurable for 4-pipe or 2-pipe systems
- ✓ Double independent circuits for high reliability
- ✓ Refrigerant R410A - GWP = 2088
- ✓ High full load and seasonal efficiency (Excellence version)
- ✓ Domestic hot water up to 60°C, low water temperature down to 5°C
- ✓ Modular operation management, up to 8 units in cascade
- ✓ Integrated hot side and cold side hydronic assemblies and system tank

$\eta_{s,h}$	(4) %	136	143	150	152	149	143	150	153	-	-	-	-

(1) Data calculated in compliance with Standard EN 14511:2022 referred to the following conditions:

Internal exchanger water temperature = 12/7°C; Outdoor heat exchanger inlet air temperature = 35°C

(2) Data calculated in compliance with Standard EN 14511:2022 referred to the following conditions:

Internal exchanger water temperature = 40/45°C; Outdoor heat exchanger inlet air temperature 7

D.B. / 6 (°C) W.B.

(3) Sound pressure levels are referred to units operating at nominal load in nominal conditions. Measurements are carried out accordingly to UNI EN ISO 9614-1 at nominal standard conditions defined in respective regulations: EU 2016/2281, UE 813/2013, UE 811/2013.

(4) Data calculated according to the EN 14825:2018 Regulation

The Product is compliant with the Erp (Energy Related Products) European Directive. It includes the Commission delegated Regulation (EU) No 811/2013 (rated heat output ≤70 kW at specified reference conditions), the Commission delegated Regulation (EU) No 813/2013 (rated heat output ≤400 kW at specified reference conditions) and the Commission delegated Regulation (EU) No 2016/2281, also known as Ecodesign Lot21.

versions and configurations

VERSION:

EXC	Excellence (Standard)
PRM	Premium

EXTERNAL SECTION FAN CONSUMPTION REDUCTION:

CREFB	Device for fan consumption reduction of the external section, ECOBREEZE type (Standard)
--------------	---

ENERGY RECOVERY:

-	Energy recovery: not required (Standard)
D	Partial energy recovery
R	Total energy recovery (WSAT-YSC4 only)

EVAPORATOR

EVPH	Plate heat exchanger (Standard)
EVFT	Shell and tube evaporator PED test

ACOUSTIC CONFIGURATION:

ST	Standard acoustic configuration
SC	Acoustic configuration with compressor soundproofing (Standard)
EN	Super-silenced acoustic configuration

LOW TEMPERATURE (WSAT-YSC4 ONLY):

-	Energy recovery: not required (Standard)
B	Water low temperature

accessories

1PM	Hydropack with 1 pump
1PMV	Hydropack user side with nr.1 inverter pump
1PMH	Hydropack with nr.1 high static pressure pump
1PMVH	Hydropack user side with nr.1 high static pressure inverter pump
2PM	Hydropack user side with 2 pumps
2PMV	Hydropack user side with no.2 of inverter pumps
2PMH	Hydropack user side with nr.2 high static pressure pump
2PMVH	Hydropack lato utilizzo con n°2 pompe ad inverter alta prevalenza
IVFDT	Inverter driven variable flow-rate user side control depending on the temperature differential
IFWX	Steel mesh strainer on the water side
CSVX	Couple of manually operated shut-off valves
ACC	Storage tank
AMMX	Rubber antivibration mounts
CONTA2	Energy meter
RCMRX	Remote control via microprocessor control
PSX	Mains power supply
CMSC10	Serial communication module for LonWorks supervisor
CMSC9	Serial communication module for Modbus supervisor
CMSC11	Serial communication module for BACnet-IP supervisor
SCP4	Set-point compensation with 0-10 V signal
SPC1	Set point compensation with 4-20 mA signal
ECS	ECOSHARE function for the automatic management of a group of units
PFCP	Power factor correction capacitors (cosfi > 0.9)
SFSTR	Disposal for inrush current reduction
RE-25	Electrical panel antifreeze protection for min. outdoor temperature down to -25°C

MHP	High and low pressure gauges
SDV	Cutoff valve on compressor supply and return
AMMSX	Anti-seismic spring antivibration mounts
RPRI	Refrigerant leak detector in the casing
DML4-20	Demand limit with 4-20 mA
DML0-10	Demand limit with 0-10 V
PFGP	Soundproofing paneling of the pumping unit
PSWSA	Differential pressure switch water side with antifreeze protection

Only WSAT-YSC4:

PPBM	Microchannel coils protection panels
PGCC	Finned coil protection grilles and compressor compartment
CCME	Microchannel e-coated coil
RE-39	Electrical panel antifreeze protection for min. outdoor temperature down to -39°C
IVFEDT	Variable flow-rate control of the inverter pump external to the unit depending on the temperature differential

Only WSAN-YSC4:

CCCA	Copper / aluminium condenser coil with acrylic lining
CCCA1	Condenser coil with Aluminium Energy Guard DCC treatment
PGCCH	Anti-hail protection grilles
PGFC	Finned coil protection grill

Accessories whose code ends with "X" are supplied separately

NEW PRODUCT

SPINchiller⁴ PL

Multi-purpose reversible heat pump

Air cooled

Outdoor installation

Capacity from 225 to 664 kW

- ✓ Scroll compressors, EC axial fans and two independent circuits for high reliability
- ✓ Polyvalent technology configurable for 4-pipe
- ✓ Refrigerant R32 - GWP = 675
- ✓ Domestic hot water up to 55°C
- ✓ Plate heat exchanger or shell & tube exchanger
- ✓ Two acoustic configurations: standard and super-silenced
- ✓ Modular operation management, up to 7 units in cascade
- ✓ Integrated hot side and cold side hydronic units

compliant
ErP

(1) Data compliant to Standard EN 14511:2022 referred to the following conditions: Cold side water temperature = 12/7°C; Entering external exchanger air temperature = 35°C

(2) Data compliant to Standard EN 14511:2022 referred to the following conditions: Hot side water temperature = 40/45°C; Entering external exchanger air temperature = 7°C D.B./6°C W.B.

(3) Data compliant to Standard EN 14511:2022 referred to the following conditions: Cold side water temperature = 7/7°C; Hot side water temperature = 45/45°C

(4) TER = (Cooling capacity + Heating capacity) / (Total power input)

(5) Sound pressure levels are referred to units operating at nominal load in nominal conditions. Measurements are carried out accordingly to UNI EN ISO 9614-1 at nominal standard conditions defined in respective regulations: EU 2016/2281, UE 813/2013, UE 811/2013

(6) Data calculated according to the EN 14825:2018 Regulation

The Product is compliant with the Erp (Energy Related Products) European Directive. It includes the Commission delegated Regulation (EU) No 811/2013 (rated heat output ≤70 kW at specified reference conditions), the Commission delegated Regulation (EU) No 813/2013 (rated heat output ≤400 kW at specified reference conditions) and the Commission delegated Regulation (EU) No 2016/2281, also known as Ecodesign Lot21.

PRELIMINARY DATA

accessories

CCCA	Copper / aluminium condenser coil with acrylic lining
CCCA1	Condenser coil with Aluminium Energy Guard DCC treatment
IVFCDT	Inverter driven variable flow-rate user side control depending on the temperature differential
IVFHDT	Variable flow rate control heating side by inverter according to the temperature differential
IVFCDTS	Variable flow control heating side by inverter according to the temperature differential with pressure drop sensor
IVFHDTs	Variable flow control heating side by inverter according to the temperature differential with pressure drop sensor
IVFCDTF	Variable flow rate control cooling side by inverter according to the temperature differential with a flow meter
IVFHDTF	Variable flow control heating side by inverter according to the temperature differential with pressure drop sensor
PFGP	Soundproofing paneling of the pumping unit
IVFDT	Inverter driven variable flow-rate user side control depending on the temperature differential
CSVX	Couple of manually operated shut-off valves
IFWX	Steel mesh strainer on the water side
CMSC10	Serial communication module for LonWorks supervisor
CMSC9	Serial communication module for Modbus supervisor
CMSC11	Serial communication module for BACnet-IP supervisor
RCMRX	Remote control via microprocessor control
CONTA3	M-bus total electricity meter
CONTA4	Total electricity meters and m-bus pump group
RE-25	Electrical panel antifreeze protection for min. outdoor temperature down to -25°C
DML4-20	Demand limit with 4-20 mA

Accessories whose code ends with "X" are supplied separately

DML0-10	Demand limit with 0-10 V
ECS	ECOSHARE function for the automatic management of a group of units
RPRI	Refrigerant leak detector in the casing
SFSTR	Disposal for inrush current reduction
PFCC	Power factor correction capacitors (cosφ > 0.95)
SPC1	Set-point compensation with 4-20 mA
SCP4	Set-point compensation with 0-10 V
PSX	Mains power supply
AMMX	Rubber antivibration mounts
AMMSX	Anti-seismic spring antivibration mounts
PGFC	Finned coil protection grill
PGCCH	Anti-hail protection grilles
PSWSA	Differential pressure switch water side with antifreeze protection
2PMCS	Hydropack cooling side with 2 on-off pumps
2PMCS2V	Hydropack on cold user side with 2 pumps and 2 inverters
1+1PMCS	Hydropack cooling side with 1 + 1 on-off pump
1+1PMCSV	Hydropack cooling side with 1 + 1 inverter pump
2PMMS	Hydropack heating side with 2 on-off pumps
2PMMS2V	Hydropack on hot user side with 2 pumps and 2 inverters
1+1PMMS	Hydropack heating side with 1 + 1 on-off pump
1+1PMMSV	Hydropack heating side with 1 + 1 inverter pump
FMCHX	Cooling and heating side flow meters
RDVS	Switching valve with dual safety valves
MISTER1	Indirect energy meter through pressure drops and unit probes temperature differential
MISTER2	Direct energy meter by flow rate and temperature differential with unit probes (available only with options: FMCHX)

SPINchiller⁴

Reversible heat pump

Air cooled

Outdoor installation

Capacity from 670 to 1260 kW

- ✓ Four independent circuits for high reliability with scroll compressors and EC Axial fans
- ✓ High full load and seasonal efficiency (Excellence version), high seasonal efficiency and compact dimensions (Premium version)
- ✓ Refrigerant R32 - GWP = 675
- ✓ Domestic hot water up to 55°C
- ✓ Plate heat exchanger or shell & tube exchanger
- ✓ Three acoustic configurations
- ✓ Modular operation management, up to 4 units in cascade
- ✓ Integrated hydronic assembly, system tank and partial heat recovery

Clivet participates in the EUROVENT "Liquid Chilling Packages and Hydronic Heat Pumps". The products concerned feature on the website www.eurovent-certification.com

SPC1	Set-point compensation with 4-20 mA

ECS	ECOSHARE function for the automatic management of a group of units
PFCC	Power factor correction capacitors (cosfi > 0.95)
SFSTR	Disposal for inrush current reduction
RE-25	Electrical panel antifreeze protection for min. outdoor temperature down to -25°C
SDV	Cutoff valve on compressor supply and return
AMMSX	Anti-seismic spring antivibration mounts
RPRI	Refrigerant leak detector in the casing
DML4-20	Demand limit with 4-20 mA
DML0-10	Demand limit with 0-10 V
PFGP	Soundproofing paneling of the pumping unit
PSWSA	Differential pressure switch water side with antifreeze protection
PPBM	Microchannel coils protection panels
PGCC	Finned coil protection grilles and compressor compartment
CCME	Microchannel e-coated coil
RE-39	Electrical panel antifreeze protection for min. outdoor temperature down to -39°C

Accessories whose code ends with "X" are supplied separately

SPINchiller³ FC

Liquid chiller with FREE-COOLING

Air cooled

Outdoor installation

Capacity from 299 to 1114 kW

compliant
ErP

- ✓ Double independent circuits for high reliability with scroll compressors
- ✓ Solution for cold climates and industrial application
- ✓ Refrigerant R410A - GWP = 2088
- ✓ Operation down to -39°C outdoor air temperature, low water temperature down to -8°C
- ✓ Direct Free-cooling and No-glycol Free-cooling
- ✓ Two acoustic configurations
- ✓ Modular operation management, up to 8 units in cascade
- ✓ Integrated hydronic assembly and partial recovery

Remotex

Liquid chiller in two sections

MSRT-XSC3 + CEV-XT: cooling only

MSRN-XSC3 + CEV-XN: Reversible heat pump

Air cooled

Indoor installation

Capacity from 239 to 682 kW

- ✓ Double independent circuits for high reliability with scroll compressors
- ✓ Hydronic system in two sections which adapts to installations where space and noise are challenging
- ✓ High efficiency with compact dimensions (Excellence version)
- ✓ Refrigerant R410A - GWP = 2088
- ✓ Domestic hot water up to 53°C, low water temperature down to -8°C
- ✓ Two acoustic configurations
- ✓ Modular operation management, up to 8 units in cascade
- ✓ Integrated hydronic assembly and partial recovery

Compact control unit

The Remotex internal section contains all functionalities and components necessary for correct operation, already optimised and tested by Clivet for maximum efficiency and reliable results. The Hydropack pumping units are also available inside the section, ready for use.

Scalable

The simple addition of further sections adjusts the capacity produced for the actual needs of the building. Always adding less space than traditional solutions. In this way, the investment is also diluted over time.

HYDRONIC

An unique system

TRADITIONAL DESIGN

COMPACT AND SILENT DESIGN WITH REMOTEX

Remotex is perfect in combination with ZEPHIR, the innovative autonomous primary air system for thermodynamic energy recovery: smaller technical rooms, maximum simplification and rapidity of plant construction, even more space and silent operation outside.

(1) Data refer to the following conditions: internal water exchanger temperature = 12/7°C; outdoor air temperature = 35°C

(2) Sound pressure levels are referred to units operating at nominal load in nominal conditions. Measurements are carried out accordingly to UNI EN ISO 9614-1 at nominal standard conditions defined in respective regulations: EU 2016/2281, UE 813/2013, UE 811/2013

(3) Data calculated according to the EN 14825:2018 Regulation

(4) Data referred to the following conditions: Internal exchanger water temperature = 40/45°C; entering external exchanger air temperature = 7°C D.B. / 6°C W.B.

The Product is compliant with the Erp (Energy Related Products) European Directive. It includes the Commission delegated Regulation (EU) No 811/2013 (rated heat output ≤70 kW at specified reference conditions), the Commission delegated Regulation (EU) No 813/2013 (rated heat output ≤400 kW at specified reference conditions) and the Commission delegated Regulation (EU) No 2016/2281, also known as Ecodesign Lot21.

The above mentioned data are referred to standard units for the constructive configurations indicated.
For all the other configurations, refer to the relative Technical Bulletin.

CAUTION!

For trouble-free operation of the unit it is essential to maintain the safety distances indicated by the green areas.

SCREWLine⁴-i MF

Multi-purpose reversible heat pump

Air cooled

Outdoor installation

Capacity from 522 to 989 kW

- ✓ Screw compressors with inverter technology and EC Axialfans type
- ✓ Polyvalent technology configurable for 4-pipe
- ✓ Double independent circuits for high reliability
- ✓ Refrigerant R513A - GWP = 631
- ✓ High full load and seasonal efficiency (Excellence version) for all 3 acoustic versions
- ✓ Domestic hot water up to 60°C, low water temperature down to -8°C
- ✓ Modular operation management, up to 7 units in cascade
- ✓ Integrated hot side and cold side hydronic assemblies

The Product is compliant with the Erp (Energy Related Products) European Directive. It includes the Commission delegated Regulation (EU) No 811/2013 (rated heat output ≤70 kW at specified reference conditions), the Commission delegated Regulation (EU) No 813/2013 (rated heat output ≤400 kW at specified reference conditions) and the Commission delegated Regulation (EU) No 2016/2281, also known as Ecodesign Lot21.

accessories

SPC1	Set-point compensation with 4-20 mA
SCP4	Set-point compensation with 0-10 V
SPC2	Set-point compensation with outdoor air temperature probe
IVFCDT	Inverter driven variable flow-rate user side control depending on the temperature differential
IVFHDT	Variable flow rate control heating side by inverter according to the temperature differential
IVFCDTS	Variable flow control heating side by inverter according to the temperature differential with pressure drop sensor
IVFHDTs	Variable flow control heating side by inverter according to the temperature differential with pressure drop sensor
IVFCDTF	Variable flow rate control cooling side by inverter according to the temperature differential with a flow meter
IVFHDTF	Variable flow control heating side by inverter according to the temperature differential with pressure drop sensor
CONTA3	M-bus total electricity meter
CONTA4	Total electricity meters and m-bus pump group
IFWX	Steel mesh strainer on the water side
CSVX	Couple of manually operated shut-off valves
AMMX	Rubber antivibration mounts
AMMSX	Anti-seismic spring antivibration mounts
RCMRX	Remote control via microprocessor control
PSX	Mains power supply
CMSC9	Serial communication module for Modbus supervisor
CMSC10	Serial communication module for LonWorks supervisor
CMSC11	Serial communication module for BACnet-IP supervisor

RPRI	Refrigerant leak detector in the casing
FMCHX	Cooling and heating side flow meters
RE-25	Electrical panel antifreeze protection for min. outdoor temperature down to -25°C
ECS	ECOSHARE function for the automatic management of a group of units
FC2	EMC filtering to reduce conducted compressor emissions
PGFC	Finned coil protection grill
PGCCH	Anti-hail protection grilles
RDVS	Switching valve with dual safety valves
CCCA	Copper / aluminium condenser coil with acrylic lining
CCCA1	Condenser coil with Aluminium Energy Guard DCC treatment
1+1PMHSV	Hydropack heating side with 1 + 1 inverter pump
2PMHSV	Hydropack cooling side with 2 inverter pumps
1+1PMHS	Hydropack heating side with 1 + 1 on-off pump
2PMHS	Hydropack heating side with 2 on-off pumps
1+1PMCSV	Hydropack cooling side with 1 + 1 inverter pump
2PMCSV	Hydropack heating side with 2 inverter pumps
1+1PMCS	Hydropack cooling side with 1 + 1 on-off pump
2PMCS	Hydropack cooling side with 2 on-off pumps
MISTER1	Indirect energy meter through pressure drops and unit probes temperature differential
MISTER2	Direct energy meter by flow rate and temperature differential with unit probes (available only with options: FMCHX)
MISTER3	Direct energy meter via m-bus (available only with options: FMCHX)

SCREWLine⁴-i

Liquid chiller

Air cooled

Outdoor installation

Capacity from 204 to 1055 kW

- ✓ Screw compressors with inverter technology, Microchannel coils and EC Axial fans type
- ✓ Quite zero environmental impact solution, with one or two independent circuits for high reliability
- ✓ Refrigerant R1234ze - GWP = 7
- ✓ High full load and seasonal efficiency (Excellence version)
- ✓ Operation down to 50°C outdoor air temperature, low water temperature down to -2°C
- ✓ Three acoustic configurations
- ✓ Modular operation management, up to 7 units in cascade
- ✓ Integrated hydronic assembly and partial recovery

(1) Data calculated in compliance with Standard EN 14511:2022 referred to the following conditions: Internal exchanger water temperature = 12/7°C; Outdoor heat exchanger inlet air temperature = 35°C

(2) ISW = screw compressor with integrated inverter

(3) Sound pressure levels are referred to units operating at nominal load in nominal conditions. Measurements are carried out accordingly to UNI EN ISO 9614-1 at nominal standard conditions defined in respective regulations: EU 2016/2281, UE 813/2013, UE 811/2013.

(4) Data calculated according to the EN 14825:2018 Regulation

The Product is compliant with the Erp (Energy Related Products) European Directive. It includes the Commission delegated Regulation (EU) No 2016/2281, also known as Ecodesign Lot21.

accessories

1PM	Hydropack with 1 pump
1PMV	Hydropack user side with nr.1 inverter pump
1PMH	Hydropack with nr.1 high static pressure pump
1PMVH	Hydropack user side with nr.1 high static pressure inverter pump
2PM	Hydropack user side with 2 pumps
2PMV	Hydropack user side with no.2 of inverter pumps
2PMH	Hydropack user side with nr.2 high static pressure pump
2PMVH	Hydropack lato utilizzo con n°2 pompe ad inverter alta prevalenza
IVFDT	Inverter driven variable flow-rate user side control depending on the temperature differential
IFWX	Steel mesh strainer on the water side
CSVX	Couple of manually operated shut-off valves
AMMX	Rubber antivibration mounts
AMMSX	Anti-seismic spring antivibration mounts
CONTA2	Energy meter
RCMRX	Remote control via microprocessor control
PSX	Mains power supply

CMSC9	Serial communication module for Modbus supervisor
CMSC10	Serial communication module for LonWorks supervisor
CMSC11	Serial communication module for BACnet-IP supervisor
RPRI	Refrigerant leak detector in the casing
SCP4	Set-point compensation with 0-10 V signal
SPC2	Set-point compensation with outdoor air temperature probe
PPBM	Microchannel coils protection panels
CCME	Microchannel e-coated coil
MHP	High and low pressure gauges
RE-25	Electrical panel antifreeze protection for min. outdoor temperature down to -25°C
ECS	ECOSHARE function for the automatic management of a group of units
FC2	EMC filtering to reduce conducted compressor emissions
PGCC	Finned coil protection grilles and compressor compartment
RDVS	Switching valve with dual safety valves
REGBT	Device for the condensing coil partialization

Accessories whose code ends with "X" are supplied separately

It can only be sold in an industrial application

SCREWLine³ FC

Liquid chiller with FREE-COOLING

Air cooled

Outdoor installation

Capacity from 520 to 1523 kW

- ✓ Double independent circuits for high reliability with screw compressors
- ✓ Solution for cold climates and industrial application
- ✓ Refrigerant R134a - GWP = 1430
- ✓ Operation down to -39°C outdoor air temperature, low water temperature down to -8°C
- ✓ Direct Free-cooling and No-glycol Free-cooling
- ✓ Two acoustic configurations
- ✓ Modular operation management, up to 7 units in cascade
- ✓ Integrated hydronic assembly and partial recovery

(1) Data calculated in compliance with Standard EN 14511:2022 referred to the following conditions:

Internal exchanger water temperature = 12/7°C; Outdoor heat exchanger inlet air temperature = 35°C

(2) Data calculated in compliance with Standard EN 14511:2022 referred to the following conditions:

Internal exchanger water temperature = 40/45°C; Outdoor heat exchanger inlet air temperature 7 D.B. /6 (°C) W.B.

(3) Sound power measured in accordance with UNI EN ISO 9614 and Eurovent 8/1 standards for ducted unit with available pressure equal to 120 Pa

(4) Data calculated according to the EN 14825:2018 Regulation

The Product is compliant with the Erp (Energy Related Products) European Directive. It includes the Commission delegated Regulation (EU) No 811/2013 (rated heat output ≤70 kW at specified reference conditions), the Commission delegated Regulation (EU) No 813/2013 (rated heat output ≤400 kW at specified reference conditions).

HYDRONIC

accessories

- 1PUB** Low static pressure single pump
- 1PUA** High static pressure single pump
- 1PUHE** High efficiency single inverter pump for primary circuit.
- IFWX** Steel mesh strainer on the water side
- ABU** Flush hydraulic connections
- CCCA** Copper / aluminium condenser coil with acrylic lining
- AMRX** Rubber antivibration mounts
- PGFC** Finned coil protection grill
- CMSC9** Serial communication module for Modbus supervisor
- CMSC10** Serial communication module for LonWorks supervisor
- CMSC11** Serial communication module for BACnet-IP supervisor
- PFCC** Power factor correction capacitors (cosfi > 0.95)
- SFSTR** Disposal for inrush current reduction
- FANQE** Electrical panel ventilation
- MHP** High and low pressure gauges

- SDV** Cutoff valve on compressor supply and return
- SCP4** Set-point compensation with 0-10 V signal
- SPC2** Set-point compensation with outdoor air temperature probe
- CSVX** Couple of manually operated shut-off valves
- MF2** Multi-function phase monitor
- CONTA2** Energy meter
- ECS** ECOSHARE function for the automatic management of a group of units
- RCMRX** Remote control via microprocessor control
- PSX** Mains power supply
- STSOL** Additional lifting brackets
- OHE** Limit extension kit in heating up to -10°C (W.B.)
- VACSUX** User side DHW switching valve

Accessories whose code ends with "X" are supplied separately

ELFOEnergy Ground

Reversible heat pump

Water cooled

Indoor installation

Capacity from 6,23 to 33,1 kW

- ✓ Scroll compressor and plate heat exchangers
- ✓ First investment driven and refurbishment applications
- ✓ Refrigerant R410A - GWP = 2088
- ✓ Versatile applications with double set-point and boiler control kits
- ✓ Domestic hot water up to 60°C, low water temperature down to -8°C
- ✓ Energy saving with set-point compensation according to outside enthalpy or air temperature
- ✓ Integrated source and user side hydronic assemblies and three-way valve

Clivet participates in the EUROVENT "Liquid Chilling Packages and Hydronic Heat Pumps". The products concerned feature on the website www.eurovent-certification.com

W35/W7 water at the user side heat exchanger 12/7°C; inlet water at the source side heat exchanger 30/35°C

(2) Data calculated according to the EN 14825:2018 Regulation

(3) Sound pressure levels are referred to units operating at nominal load in nominal conditions. Measurements are carried out accordingly to UNI EN ISO 9614-1 at nominal standard conditions defined in respective regulations: EU 2016/2281, UE 813/2013, UE 811/2013.

The Product is compliant with the Erp (Energy Related Products) European Directive. It includes the Commission delegated Regulation (EU) No 811/2013 (rated heat output ≤70 kW at specified reference conditions), the Commission delegated Regulation (EU) No 813/2013 (rated heat output ≤400 kW at specified reference conditions).

accessories

- 3WV** Three-way valve
- IVMSX** Source side 2-way modulating valve
- IVWX** Water side motorized valve
- AMRX** Rubber antivibration mounts
- CMMBX** Serial communication module to supervisor (Modbus)
- PBLC1X** Service keypad (cable from 1,5 metres)
- PMX** Phase monitor
- SCP3X** Set point compensation according to the outside enthalpy
- SPCX** Set-point compensation with outdoor air temperature probe
- SFSTR4N** Disposal for inrush current reduction, for unit 400/3/50+N
- KDT3VX** Double temperature control kit, set point compensation with 4-20mA, 3
- KDT3V** Double temperature control kit, set point compensation with 4-20mA, 3
- 3DHWX** Three-way valve for domestic hot water
- SFSTR1** Disposal for inrush current reduction, for unit 230/1/50 (sizes 17÷51)
- KTFL1X** 1" water side hose kit (sizes 17÷71)

- KTFL2X** 1 1/4" water side hose kit
- CACSX** Domestic hot water kit control
- ACS300X** 300-litre domestic hot water storage tank (sizes 17÷41)
- ACS500X** 500-litre domestic hot water storage tank (sizes 17÷81)
- ACS55X** 500-litre domestic hot water storage tank (sizes 17÷81)
- ACS35X** 300-litre domestic hot water storage tank (sizes 17÷41)
- KVMSP1X** Kit for management of radiant panels with connections of 1"(sizes 17÷51)
- KVMSP2X** Kit for management of radiant panels with connections of 1 1/4"
- KSAX** 100-litre circuit breaker
- KVICX** Boiler control kit (sizes 17÷81)
- KITERAX** Electronic wall-mounting room thermostat

(1) Data calculated according to EN 14511:2022 referred to the following conditions: Internal exchanger water temperature = 12/7°C; External exchanger water temperature = 30/35°C

(2) Data calculated according to EN 14511:2022 referred to the following conditions: Water to internal exchanger = 40/45°C; Water temperature to external exchanger = 10/7°C

(3) Sound pressure levels are referred to units operating at nominal load in nominal conditions. Measurements are carried out accordingly to UNI EN ISO 9614-1 at nominal standard conditions defined in respective regulations: EU 2016/2281, UE 813/2013, UE 811/2013.

(4) Data calculated according to the EN 14825:2018 Regulation

The Product is compliant with the Erp (Energy Related Products) European Directive. It includes the Commission delegated Regulation (EU) No 811/2013 (rated heat output ≤70 kW at specified reference conditions), the Commission delegated Regulation (EU) No 813/2013 (rated heat output ≤400 kW at specified reference conditions) and the Commission delegated Regulation (EU) No 2016/2281, also known as Ecodesign Lot21.

accessories

SDV	Cutoff valve on compressor supply and return (sizes 12.2÷80.2)
MOBMAG	Larger units
MF2	Multi-function phase monitor
RCTX	Remote control
CMSC10	Serial communication module for LonWorks supervisor
CMSC8	Serial communication module for BACnet supervisor
CMSC9	Serial communication module for Modbus supervisor
CMMBX	Serial communication module to supervisor (Modbus)
CMSLWX	LonWorks serial communication module
BACX	Serial communication module for BACnet supervisor
SPCX	Set-point compensation with outdoor air temperature probe
IFWX	Steel mesh strainer on the water side
SFSTR	Disposal for inrush current reduction
PFCP	Power factor correction capacitors (cosfi > 0.9)
AVIBX	Anti-vibration mount support

Only WSH-XEE2:

VS2MC	Cooling side 2-way modulating valve (sizes 12.2÷80.2)
VS2MCX	Cooling side 2-way modulating valve
VS3MC	Cooling side 2-way modulating valve
VS3MCX	Cooling side 3-way modulating valve
VARYC	VARYFLOW + (cooling side 2 inverter pumps)
VS2MH	Cooling side 3-way modulating valve (sizes 12.2÷80.2)
VS2MHX	Heating side 2-way modulating valve
VS3MH	Cooling side 3-way modulating valve
VS3MHX	Heating side 3-way modulating valve
VARYH	VARYFLOW + (heating side 2 inverter pumps)
VACSHX	Heating side DHW switching valve

Only WSHN-XEE2:

VACSUX	User side DHW switching valve
VARYU	VARYFLOW + (user side 2 inverter pumps)
VS2M	Source side 2-way modulating valve (sizes 12.2÷80.2)
VS2MX	Source side 2-way modulating valve
VS3M	Source side 3-way modulating valve (sizes 12.2÷80.2)
VS3MX	Source side 3-way modulating valve
VARYS	VARYFLOW + (source side 2 inverter pumps)

Accessories whose code ends with "X" are supplied separately

(1) Performance data calculated in accordance with EN 14511:2022 referred to the following conditions: Internal exchanger water temperature = 12/7°C; External exchanger water temperature = 30/35°C

(2) Data calculated in compliance with Standard EN 14511:2022 referred to the following conditions: Internal exchanger water temperature = 40/45°C; External exchanger water temperature = 10/7°C

(3) Sound pressure levels are referred to units operating at nominal load in nominal conditions. Measurements are carried out accordingly to UNI EN ISO 9614-1 at nominal standard conditions defined in respective regulations: EU 2016/2281, UE 813/2013, UE 811/2013.

(4) Data calculated according to the EN 14825:2018 Regulation

The Product is compliant with the ErP (Energy Related Products) European Directive. It includes the Commission delegated Regulation (EU) No 811/2013 (rated heat output ≤70 kW at specified reference conditions), the Commission delegated Regulation (EU) No 813/2013 (rated heat output ≤400 kW at specified reference conditions) and the Commission delegated Regulation (EU) No 2016/2281, also known as Ecodesign Lot21.

accessories

AP	Rear water fittings
SDV	Cutoff valve on compressor supply and return
MHP	High and low pressure gauges
MF2	Multi-function phase monitor
SFSTR	Disposal for inrush current reduction
RCMRX	Remote control via microprocessor control
ACIE	Antifreeze heater for internal exchanger protection
EHCS	Source side antifreeze electric heaters
CMSC10	Serial communication module for LonWorks supervisor
CMSC9	Serial communication module for Modbus supervisor
CMSC11	Serial communication module for BACnet-IP supervisor
SCP4	Set-point compensation with 0-10 V signal
SPC2	Set-point compensation with outdoor air temperature probe
CSVX	Couple of manually operated shut-off valves
IFWX	Steel mesh strainer on the water side
PFCP	Power factor correction capacitors (cosfi > 0.9)
AVIBX	Anti-vibration mount support
CONTA2	Energy meter
RPRPDI	Refrigerant leak detector with pump down function in the casing
ECS	ECOSHARE function for the automatic management of a group of units
PSX	Mains power supply
IVFDT	Inverter driven variable flow-rate user side control depending on the temperature differential

Only WSH-XSC3:

HYGC1	Cooling side hydronic assembly with 1 ON/OFF pump
HYGC2	Cooling side hydronic assembly with 2 ON/OFF pumps
VS2MC	Cooling side 2-way modulating valve
VS2MCX	Cooling side 2-way modulating valve
VS3MCX	Cooling side 3-way modulating valve
VARYC	VARYFLOW + (cooling side 2 inverter pumps)
2PMC	Hydropack cooling side with 2 pumps
V2MCP	Cooling side 2-way modulating valve for high DP
V2MCPX	Cooling side 2-way modulating valve for high DP
HYGH1	Heating side hydronic assembly with 1 ON/OFF pump
HYGH2	Heating side hydronic assembly with 2 ON/OFF pumps
VARYH	VARYFLOW + (heating side 2 inverter pumps)
VS2MH	Heating side 2-way modulating valve

VS2MHX	Heating side 2-way modulating valve
VS3MHX	Heating side 3-way modulating valve
2PMH	Hydropack heating side with 2 pumps
V2MHP	Heating side 2-way modulating valve for high DP
V2MHPX	Heating side 2-way modulating valve for high DP

Only WSHN-XSC3:

HYGU1	User side hydronic assembly with 1 ON/OFF pump
HYGU2	User side hydronic assembly with 2 ON/OFF pumps
VARYU	VARYFLOW + (user side 2 inverter pumps)
HYP2U	Hydropack user side with 2 pumps
HYGS1	Source side hydronic assembly with 1 ON/OFF pump
HYGS2	Source side hydronic assembly with 2 ON/OFF pumps
VARYS	VARYFLOW + (source side 2 inverter pumps)
VS2M	Source side 2-way modulating valve
VS2MX	Source side 2-way modulating valve
VS3MX	Source side 3-way modulating valve
HYP2S	Hydropack source side with 2 pumps
V2MSP	Source side 2-way modulating valve for high DP
V2MSPX	Source side 2-way modulating valve for high DP

Accessories whose code ends with "X" are supplied separately

NEW PRODUCT

SCREWLine⁴-i PL

Multi-purpose reversible heat pump

Water cooled

Indoor installation

Capacity from 440 to 945 kW

- ✓ Crew compressors with inverter technology and heat exchanger tube exchanger
- ✓ Polyvalent technology for 4-pipe
- ✓ Double independent circuits for high reliability
- ✓ Refrigerant R513A - GWP = 631
- ✓ High full load and seasonal efficiency
- ✓ Domestic hot water up to 55°C, low water temperature down to 4°C
- ✓ Two acoustic configurations: standard and super-silenced
- ✓ Modular operation management, up to 7 units in cascade

functions and features

Heat pump

Water cooled

Indoor installation

R-513A

Semi-hermetic Twin-screw

Full Inverter

Electronic expansion valve

Liquid chiller

Water cooled

Indoor installation

Capacity from 340 to 1440 kW

- ✓ Screw compressors with inverter technology and spray shell & tube evaporator
- ✓ Low environmental impact solution, with one or two independent circuits for high reliability
- ✓ Refrigerant R513A - GWP = 631
- ✓ High seasonal efficiency with SEER values up to 8.60
- ✓ 3 operating modes: Cooling only, Heating only, Operation with water circuit change-over
- ✓ Two acoustic configurations: standard and super-silenced
- ✓ Modular operation management, up to 8 units in cascade
- ✓ Condenser water temperature up to 65°C with high water temperature version (HWT), evaporator water temperature down to -8°C

(4) SW = screw compressor with integrated inverter

(5) Data calculated according to the EN 14825:2018 Regulation

The Product is compliant with the Erp (Energy Related Products) European Directive. It includes the Commission delegated Regulation (EU) No 2016/2281, also known as Ecodesign Lot21.

HYDRONIC

accessories

AMRX Rubber antivibration mounts
RCMRX Remote control via microprocessor control
PSX Mains power supply
CONTA2 Energy meter
CMSC9 Serial communication module for Modbus supervisor
CMSC10 Serial communication module for LonWorks supervisor
CMSC11 Serial communication module for BACnet-IP supervisor
SCP4 Set-point compensation with 0-10 V signal
SPC1 Set point compensation with 4-20 mA signal
SPC2 Set-point compensation with outdoor air temperature probe
ECS ECOSHARE function for the automatic management of a group of units
IVMSX Source side 2-way modulating valve
MHP High and low pressure gauges
SDV Cutoff valve on compressor supply and return
CO3P 3-step condenser
AACT Opposing evaporator water connections

AAR DX evaporator water connections
CDR DX condenser water connections
CDCT Opposing condenser water connections
EV3P 3-step evaporator
ISS Condenser insulation
IM 20 mm thickness insulation for increased evaporator
EHCS Source side antifreeze electric heaters
EHWP User side water piping antifreeze electric heaters
IFU2X Steel mesh filter on cold side
IFS2X Steel mesh filter on hot side
RPR Refrigerant drops detector
FC2 EMC filtering to reduce conducted compressor emissions
AMMSX Anti-seismic spring antivibration mounts
AMMX Rubber antivibration mounts

Accessories whose code ends with "X" are supplied separately

Liquid chiller

Water cooled

Indoor installation

Capacity from 572 to 1499 kW

Clivet participates in the EUROVENT "Liquid Chilling Packages and Hydronic Heat Pumps". The products concerned feature on the website www.eurovent-certification.com

compliant
ErP

- ✓ Double independent circuits for high reliability with screw compressors
- ✓ First investment driven and refurbishment applications
- ✓ Refrigerant R134a - GWP = 1430
- ✓ 3 operating modes: Cooling only, Heating only, Operation with water circuit change-over
- ✓ Two acoustic configurations: standard and super-silenced
- ✓ Modular operation management, up to 7 units in cascade
- ✓ Integrated partial and total recovery
- ✓ Condenser water temperature up to 65°C with heating only version (OHO), evaporator water temperature down to -8°C

Indoor installation

Capacity from 300 to 1427 kW

- ✓ Screw compressors and shell & tube evaporator
- ✓ Solution for cold climates in combination with remote condensers
- ✓ One or two independent circuits for high reliability
- ✓ Refrigerant R134a - GWP = 1430
- ✓ All sensitive components are protected against the atmospheric agents
- ✓ Two acoustic configurations: standard and super-silenced
- ✓ Modular operation management, up to 8 units in cascade
- ✓ Condensing temperature up to 65°C, low water temperature down to -8°C

compliant
ErP

- ✓ Full inverter
- ✓ High part load efficiency
- ✓ Extended working limit (-15°C in heating mode)
- ✓ Enhanced air filtration with low ventilation consumption
- ✓ Thermodynamic recovery
- ✓ Smart Freecooling and Defrosting management
- ✓ All component included on board for an enhanced installation
- ✓ Remote and centralized system monitoring through INTELLIAIR

Control keypad standard supplied. Main functions:
unit on/off
unit main information
daily/weekly programming
temperature set-point modification
humidity set-point modification
manual or automatic summer/winter switching

The Product is compliant with the Erp (Energy Related Products) European Directive. It includes the Commission delegated Regulation (EU) No 2016/2281, also known as Ecodesign Lot21.

Performances are referred to operation with 30% fresh and exhaust air with thermodynamic recovery REVO (CCK-REVO)

(1) Ambient air at 27°C/19°C W.B., Entering external exchanger air temperature 35°C D.B. / 24°C W.B.
 (2) Ambient air at 20°C D.B. / 12°C W.B., Entering external exchanger air temperature 7°C D.B. / 6°C W.B.

(3) ROT = rotary compressor; SCROLL = scroll compressor

(4) RAD = Radial fan; AX = Axial Fan; EC = Electronically Commutated

(5) Net outside static pressure to win the outlet and intake onboard pressure drops

(6) Only for double fan section configuration with fresh air and REVO thermodynamic recovery (CCK-REVO)

(7) Sound pressure levels are referred to units operating at nominal load in nominal conditions. Measurements are carried out accordingly to UNI EN ISO 9614-1 at nominal standard conditions defined in respective regulations: EU 2016/2281, UE 813/2013, UE 811/2013

(8) Data calculated according to the EN 14825:2022

(9) Capacity in total recirculation according to EN 14511:2022, indoor air temperature 27°C D.B./19°C W.B.; outdoor temperature 35°C; EER according to EN 14511:2022

(10) Capacity in total recirculation according to EN 14511:2022, indoor air temperature 20°C; outdoor temperature 7°C D.B./6°C W.B.; COP according to EN 14511:2022

accessories

- FC** Thermal FREE-COOLING (CBK-G, CCK-REVO version)
FCE Enthalpy FREE-COOLING (CBK-G, CCK-REVO version)
REVO REVO exhaust air thermodynamic energy recovery (CCK-REVO version)
CHW2 Two-rows hot water coil
CHWER Energy recovery from food refrigeration
3WVM 3-way modulating valve
2WVM 2-way modulating valve
EH12 9 kW electric heaters (size 20.2)
EH14 12 kW electric heaters (size 20.2-28.2)
EH17 18 kW electric heaters (size 20.2-28.2-40.4)
EH20 24 kW electric heaters (size 28.2-40.4-56.4)
EH24 36 kW electric heaters (size 40.4-56.4)
EH28 48 kW electric heaters (size 56.4)
GC01X Condensing gas heating module with modulating control 35 kW (size 20.2-28.2)
GC08X Condensing gas heating module with modulating control 44 kW (size 20.2-28.2)
GC09X Condensing gas heating module with modulating control 65 kW (size 20.2-28.2-40.4)
GC10X Condensing gas heating module with modulating control 82 kW (size 28.2-40.4-56.4)
GC11X Condensing gas heating module with modulating control 100 kW (size 28.2-40.4-56.4)
GC12X Condensing gas heating module with modulating control 130 kW (size 40.4-56.4)
GC13X Condensing gas heating module with modulating control 160 kW (size 56.4)
EWX Enthalpy wheel energy recovery module (CBK-G version)
AMRX Rubber antivibration mounts
AMRMX Rubber antivibration mounts for unit and gas module
AMRUVX Rubber antivibration mounts for unit and UV-C Lamps module
AMREWX Rubber antivibration mounts for unit and enthalpy wheel module
RCX Roof curb
PGFC Finned coil protection grill
PGCCH Anti-hail protection grilles
PCMO Sandwich panels of the handling zone in M0 fire reaction class
CPHG Hot gas re-heating coil
M3 Downward air supply
M5 Upflow air supply
R3 Downward air return
SERM Outdoor air motorized on/off damper (CBK version)
SER Outdoor air damper manually set (CBK version)

- SERMD** Modulating motorized outdoor air damper (optional for CBK, standard for CCK and CCKP)
NSERG Gravity exhaust air damper: not required (CBK-G version)
VENH High static pressure fan
PVAR Variable airflow
PCOSM Constant supply airflow
PVARDP Variable airflow with pressure probe on the unit
PVMV 4-20mA signal for supply and exhaust air flow rate modulation
PAQC Air quality probe for CO₂ rate check (CBK, CBK-G, CCK-REVO version)
PAQCV Air quality sensor for CO₂ and VOC rate check (CBK, CBK-G, CCK-REVO version)
PPAQC External CO₂ signal management (CBK, CBK-G, CCK-REVO version)
F7 High efficiency F7 air filter (ISO 16890 ePM1 55%)
F9 High efficiency F9 air filter (ISO 16890 ePM1 80%)
FIFD Electronic filter with iFD technology (ISO 16890 ePM1 90%)
PSAF Differential pressure switch for dirty air filters
HSE3 3 kg/h immersed electrodes steam humidifier (size. 20.2-28.2)
HSE5 5 kg/h immersed electrodes steam humidifier (size. 20.2-28.2)
HSE8 8 kg/h immersed electrodes steam humidifier
HSE9 15 kg/h immersed electrodes steam humidifier
PUE External humidifier management with 0-10V signal
LTEMP1 Application for low outdoor temperature
EXFLOWC Application in spaces with forced air exhaust at variable flow and exhaust section (CCK-REVO version)
UVCX UV-C lamp module with germicidal effect
CTT Temperature control with thermostat
CSOND Temperature and humidity ambient control with built-in probes
MDMTX Management of ambient temperature probes
MDMTUX Management of ambient temperature and humidity probes
IOTX IoT industrial module for cloud based interoperability & services
DESM Smoke detector
CONTA2 Energy meter
CHMET Cooling and Heating Capacity Meter
DML Demand Limit
PTCO Set up for shipping via container

Accessories whose code ends with "X" are supplied separately

For compatibility between the various accessories, please refer to the dedicated Technical Bulletin or our website in the Systems and Products section.

CLIVETPack³

Packaged air-conditioning unit

CSRN-Y: Reversible heat pump

Air cooled

Roof Top

Capacity from 190 to 380 kW

- ✓ Refrigerant R32
- ✓ Evolution of Energy recovery concept
- ✓ Energy recovery through enthalpy wheel
- ✓ Enhanced air filtration with low ventilation consumption
- ✓ Extended working limit (-15°C in heating mode)
- ✓ Reliability and increased efficiency ensured by double refrigerant circuit
- ✓ Remote and centralized system monitoring through INTELLIAIR

Clivet participates in the ECP Programme for "Rooftops". Check ongoing validity of certificate on: www.eurovent-certification.com

ErP compliant

CLIVETPack² FFA

Packaged air-conditioning unit

CSRN-XHE2 FFA: Reversible heat pump

Air cooled

Roof Top

Capacity from 40 to 90 kW

- ✓ Specifically designed for 100% fresh air conditioning application
- ✓ No contamination between supply and exhaust air
- ✓ High part load efficiency
- ✓ Smart Freecooling and Defrosting management
- ✓ Enhanced air filtration with low ventilation consumption
- ✓ Thermodynamic recovery
- ✓ Compliant with main communication protocols (Modbus, Bacnet and Lonworks)
- ✓ Many available configurations suitable for the most different project situation
- ✓ Interaction with third part extraction systems
- ✓ All component included on board for an enhanced installation
- ✓ Remote and centralized system monitoring through INTELLIAIR

Performance refers to operation with 80% of expelled and outdoor air

(1) Ambient air at 27°C D.B./19°C W.B. Outdoor air temperature: 35°C D.B./ 24°C W.B; EER referred only to compressors

(2) Ambient temperature 20°C DB. Outside temperature 7°C DB/6°C WB; COP referred only to compressors

(3) SCROLL = Scroll compressor

(4) RAD = Radial fan; AX = Axial Fan; EC = Electronically Commutated; AC = Alternating current

(5) Available net pressure to overcome the supply

(6) Sound pressure levels are referred to units operating at nominal load in nominal conditions. Measurements are carried out accordingly to UNI EN ISO 9614-1 at nominal standard.

CBFFA Configuration for fresh air supply only

accessories

RE1	Thermodynamic heat recovery system (CCFFA version)
M3	Downward air supply
M5	Upflow air supply
R3	Downward air return
PCOSM	Constant supply airflow
PCOSME	Constant airflow in supply and exhaust (CCFFA version)
CREFB	Device for fan consumption reduction of the external section, ECOBREEZE type
VENH	High static pressure fans
F7	High efficiency F7 air filter (ISO 16890 ePM1 55%)
F9	High efficiency F9 air filter (ISO 16890 ePM1 80%)
FIFD	Electronic filter with iFD technology (ISO 16890 ePM1 90%)
PSAF	Differential pressure switch for dirty air filters
EH12	9 kW electric heaters (sizes 12.2÷16.2)
EH15	13,5 kW electric heaters (sizes 12.2÷16.2)
EH17	18 kW electric heaters (sizes 20.4÷24.4)
EH22	27 kW electric heaters (sizes 20.4÷24.4)
CHW2	Two-rows hot water coil
3WVM	3-way modulating valve
2WVM	2-way modulating valve
GC01X	Condensing gas heating module with modulating control 35kW (sizes 12.2÷16.2)
GC08X	Condensing gas heating module with modulating control 44 kW (size 12.2÷16.2)
GC09X	Condensing gas heating module with modulating control 65 kW

GC10X	Condensing gas heating module with modulating control 82 kW (sizes 20.4÷24.4)
LTEMP1	Application for low outdoor temperature
PGFC	Finned coil protection grill
PGCCH	Anti-hail protection grilles
CPHG	Hot gas re-heating coil
HSE5	5 kg/h immersed electrodes steam humidifier (sizes 12.2÷16.2)
HSE8	8 kg/h immersed electrodes steam humidifier
HSE9	15 kg/h immersed electrodes steam humidifier (sizes 20.4÷24.4)
MHP	High and low pressure gauges
CMSC9	Serial communication module for Modbus supervisor
CMSC10	Serial communication module for LonWorks supervisor
CMSC11	Serial communication module for BACnet-IP supervisor
CTERM	Remote keypad for indoor temperature and humidity control
PM	Phase monitor
PFCC	Power factor correction capacitors (cosφ > 0.95)
SFSTC	Progressive compressor start-up device
PTAAX	Remote ambient air temperature sensor
PTUAX	Remote ambient air temperature and humidity probe
IOTX	IoT industrial module for cloud based interoperability & services
PCMO	Sandwich panels of the handling zone in M0 fire reaction class
PTCO	Set up for shipping via container
AMRX	Rubber antivibration mounts
AMRMX	Rubber antivibration mounts for unit and gas module
RCX	Roof curb

Accessories whose code ends with "X" are supplied separately

For compatibility between the various accessories, please refer to the dedicated Technical Bulletin or our website in the Systems and Products section.

NEW PRODUCT

Fresh Large EVO

Make-up air unit, full fresh air

With return/exhaust and thermodynamic heat recovery

Reversible heat pump

Indoor installation

Air flow rate from 350 to 2500 m³/h

- ✓ Refrigerant R32
- ✓ Full inverter
- ✓ Extended working limit (up to -20°C in heating mode)
- ✓ Additional available capacity for indoor air conditioning
- ✓ Efficient exhaust air energy recovery and low ventilation consumption thanks to the active thermodynamic recovery
- ✓ Enhanced air filtration (electronic iFD filters as option) with low ventilation consumption
- ✓ No contamination between supply and exhaust air
- ✓ Smart Freecooling and Indoor Air Quality
- ✓ All primary air devices already on board, for a simplified system design
- ✓ Compatible with VRF and Clivet monitoring systems (Control4 NRG, Clivet Eye, INTELLIAIR)
- ✓ EPP structure for maximum acoustic comfort and thermal insulation

PRIMARY AIR

ZEPHIR³

Make-up air unit, full fresh air

With return/exhaust and thermodynamic heat recovery

Reversible heat pump technology

Indoor or outdoor installation

Air flow rate from 278 to 3900 l/s
(from 1000 to 14000 m³/h)

- ✓ Inverter compressors
- ✓ Constant supply of temperature and humidity, both in cooling and heating mode both in cooling and heating mode.
- ✓ Additional available capacity for indoor air conditioning
- ✓ Efficient exhaust air energy recovery and low ventilation consumption thanks to the active thermodynamic recovery
- ✓ Enhanced air filtration (Electronic Filter iFD as std) with low ventilation consumption
- ✓ No contamination between supply and exhaust air
- ✓ Modulating re-heating, free heat from condenser
- ✓ Smart Freecooling and Indoor Air Quality management
- ✓ All primary air devices already on board, for a simplified system design
- ✓ Remote and centralized system monitoring through INTELLIAIR

The Product is compliant with the Erp (Energy Related Products) European Directive. It includes the Commission delegated Regulation (EU) No 2016/2281, also known as Ecodesign Lot21.

Values read in compliance with EN14511:2022 and including the required system fan motor and water pump capacity for overcoming pressure drops inside the unit. DB = dry bulb; WB = wet bulb
 (1) Ambient air 27°C D.B./19°C W.B. Exchanger water temperature 30°C / 35°C
 (2) Ambient air at 20°C D.B./15°C W.B. Water temperature at plate exchanger 20°C input; The water temperature at the exchanger output is read in relation to the flow of water being chilled.
 (3) ROT = rotary compressor

(4) CFG = Centrifugal fan
 (5) Water flow calculated in relation to the performances in cooling
 (6) The sound levels are referred to unit operating at a full load in nominal conditions. The sound pressure level is referred at a distance of 1m. from the external unit surface, with fairing, fitted to a wall. Please note that when the unit is installed in conditions other than nominal test conditions / for example near walls or obstacles in general) the sound levels may undergo substantial variation. Measurements are made in accordance to the UNI EN ISO 9614-2, with units installed over two sound reflective surfaces.
 (7) Data calculated according to the EN 14825:2022

accessories

CONT	Electronic room control with display, installed in a visible position on the unit with fairing
CONTX	Electronic room control with display, for installation on the uncased unit
CWMX	Electronic room control with display, for wall installation
CIWMX	Electronic room control with display, for wall installation
MIPC	Hydraulic pipework arrangement for loop with constant flow rate with manual valves
MIPV	Hydraulic pipework arrangement for loop with variable flow rate with 2 way ON-OFF valve
REQV	Constant flow retrofit water connections for EQV,VV,VM units
V2MODX	2-way modulating valve for disposable water system
KFVMX	Two ways modulating valve fixing kit for disposable water system
DAOJX	Air supply duct with flexible connection
GOJX	Air supply grille with flexible connection
FCVBX	Water balancing valve
PFHCX	200 mm flexible pipes for the connection to the water circuit + drop conduit

PFHC1X	500 mm flexible pipes for the connection to the water circuit + drop conduit
IFWX	Steel mesh strainer on the water side
CDPX	Condensate drain pump
CDPA	Condensate drain pump, built-in
FXVFX	Painted plinths for floor fixing
FXVFHX	Floor mounted painted feet kit with front grille
FXPFX	Zinc-coated plinths for floor fixing on uncased unit
FXPMX	Increased zinc-coated plinths for floor fixing on uncased unit
BACKV	Painted rear panel for cased version
MOBA	RS485 serial port with Modbus protocol, built-in
MOBX	Modbus RS485 serial port kit
CMSLWX	LonWorks serial communication module
BACX	BACnet serial communication module
CSVX	Couple of manually operated shut-off valves

Accessories whose code ends with "X" are supplied separately

VERSATEMP

Direct expansion high efficiency air conditioner

Reversible heat pump

Water cooled

Horizontal indoor installation uncased

Capacity from 2,3 to 4,2 kW

- ✓ Reversible heat pump
- ✓ Internal and horizontal installation, ductable
- ✓ High efficiency in all the operating conditions
- ✓ Quiet Operation
- ✓ Specific hydraulic circuit components for different plant solutions
- ✓ Compliant with main communication protocols
- ✓ Compliant with main communication protocols

functions and features

The Product is compliant with the Erp (Energy Related Products) European Directive. It includes the Commission delegated Regulation (EU) No 2016/2281, also known as Ecodesign Lot21.

Performance refers to operation at full recirculation (CAK config.)

(1) Data referred to the following conditions: Ambient air at 27°C/19°C W.B. Water to internal exchanger 30/35°C

(2) Data referred to the following conditions: Ambient temperature 20°C DB; Exchanger water outlet 10°C

(3) SCROLL = Scroll compressor

(4) RAD = ventilador radial; EC = Electronically Commutated

(5) Net outside static pressure to win the outlet and intake onboard pressure drops

(6) Nominal water capacity determined in function of the cooling power

(7) Data calculated according to the EN 14825:2022

accessories

THR	Exhaust air THOR thermodynamic energy recovery (CCKP version)
FC	FThermal FREE-COOLING
FCE	Enthalpy FREE-COOLING
M3	Downward air supply
M5	Upflow air supply
R3	Downward air return
SER	Outdoor air damper manually set
SERM	Outdoor air motorized on/off damper
SERMD	Modulating motorized outdoor air damper
PVAR	Variable airflow
PCOSM	Constant supply airflow
PAQC	Air quality probe for CO ₂ rate check
PAQCV	Air quality sensor for CO ₂ and VOC rate check
VENH	High static pressure fans
F7	High efficiency F7 air filter (ISO 16890 ePM1 55%)
FIFD	Electronic filter with iFD technology (ISO 16890 ePM1 90%)
PSAF	Differential pressure switch for dirty air filters
EH12	9 kW electric heaters (size 14.2÷16.4)
EH14	12 kW electric heaters (size 14.2÷30.4)
EH17	18 kW electric heaters (size 14.2÷44.4)
EH20	24 kW electric heaters (size 20.4÷110.4)
EH24	36 kW electric heaters (size 33.4÷110.4)
EH28	48 kW electric heaters (size 49.4÷110.4)
ACPC	Hydraulic pipework arrangement for loop with constant flow-rate
ACPV	Hydraulic pipework arrangement for loop with variable flow-rate
ACPM	Hydraulic pipework arrangement for system with disposable water
ACIS	Antifreeze heater protection on the water side exchanger
IFWX	Steel mesh strainer on the water side

CHW2	Two-rows hot water coil
CHWER	Energy recovery from food refrigeration
3WVM	3-way modulating valve
2WVM	2-way modulating valve
LTEMP1	Application for low outdoor temperature
CPHG	Hot gas re-heating coil
HSE3	3 kg/h immersed electrodes steam humidifier (size 14.2÷30.4)
HSE5	5 kg/h immersed electrodes steam humidifier (size 14.2÷30.4)
HSE8	3 kg/h electrode boiler steam humidifier (size 14.2÷110.4)
HSE9	15 kg/h immersed electrodes steam humidifier (size 14.2÷110.4)
HWS	Water to waste evaporating wet-deck humidifier
MHP	High and low pressure gauges
CMSC9	Serial communication module for Modbus supervisor
CMSC10	Serial communication module for LonWorks supervisor
CMSC11	Serial communication module for BACnet-IP supervisor
CTERM	Remote keypad for indoor temperature and humidity control
CSOND	Temperature and humidity ambient control with built-in probes
PM	Phase monitor
PFCC	Power factor correction capacitors (cosfi > 0.95)
DML	Demand Limit
DESM	Smoke detector
SFSTC	Progressive compressor start-up device
PCMO	Sandwich panels of the handling zone in M0 fire reaction class
AMRX	Rubber antivibration mounts
RCX	Roof curb
PTCO	Set up for shipping via container

accessories

- 3V2SX/3V2DX** Three-way valve kit for 2-pipe type "on/off" system (3V2SX for left side fittings / 3V2DX for right side fittings)
- 3V4SX/3V4DX** Three-way valve kit for 4-pipe type "on/off" system (3V4SX for left side fittings / 3V4DX for right side fittings)
- BRVHX** Auxiliary condensate collection tray auxiliary for vertical/horizontal installation
- KPDX** Plinth kit
- CCM09** Wired centraliser with weekly scheduler
- KJR90X** KJR-90D electronic room control for wall installation
- CCM30-BX** Touch-key indoor units' centralized controller

Accessories whose code ends with "X" are supplied separately

- KJR150X** Indoor units' group controller
- HMIFDCX** KJRP-75A electronic wired control for on-board or wall-mounted assembly (for DC versions)
- EXTENX** KJRP-75 wired control connection cable extension (2m)
- CCM-180A/WS** Central controller for wall mounting weekly timer 6.2"
- CCM-270A/WS** Central controller for wall mounting weekly timer 10.1"
- KCMDX** Motor connection cables for units with connections on the right (for DC versions and size 9-10-12)

versions and configurations

VERSION:

CFFAC	Cased version for vertical and horizontal installation
CFFAU	Uncased version for vertical and horizontal installation

TYPE OF SYSTEM:

CC2	2-pipe (Standard)
CC4	4-pipe

RETURN:

R3	Return from the bottom (vertical installation / from the back (horizontal installation) (Standard)
RF	Air return from the front (vertical installation) / from the bottom (horizontal installation)

HYDRAULIC CONNECTIONS

SX	Pipes connection on the left (Standard)
DX	Right side fittings

BUILT-IN VALVES

-	not required (Standard)
3V2	3-way ON/OFF valves for 2-pipe version
3V4	3-way ON/OFF valves for 4-pipe version

BUILT-IN THERMOSTAT:

NOHMI	not required (Standard)
HMIAM	KJRP-86R control mounted on board

accessories

3V2SX/3V2DX Three-way valve kit for 2-pipe type "on/off" system
(3V2SX for left side fittings / 3V2DX for right side fittings)

3V4SX/3V4DX Three-way valve kit for 4-pipe type "on/off" system
(3V4SX for left side fittings / 3V4DX for right side fittings)

BRVHX Auxiliary condensate collection tray auxiliary for vertical/horizontal installation

KPDX Plinth kit

DCPRX Power interface to control 4 Fancoils for 2-4 systems

HMIFACX KJRP-86R wired controller for on-board or wall installation

BOXX Wall installation with concealed box KJRP-86R

HIDT19X Electro-mechanical thermostat for semi-uncased wall installation with display and built-in temperature probe

Accessories whose code ends with "X" are supplied separately

ELFOSpace BOX3

Water terminal unit

By water

Remote control and condensate drain pump supplied as standard

Capacity from 2,98 to 11,19 kW

- ✓ Two modules (600 x 600 and 800 x 800) for perfect architectural integration
- ✓ Versions for 2-pipe and 4-pipe systems
- ✓ DC technology for energy savings up to 70%
- ✓ Remote control and condensate drain pump supplied as standard

The Product is compliant with the Erp (Energy Related Products) European Directive. It includes the Commission delegated Regulation (EU) No 2016/2281, also known as Ecodesign Lot21.

(1) Entering exchanger water 7°C (temperature differential 5°C) - Ambient air 27°C D.B. / 19°C W.B.

(2) Entering exchanger water 45°C (temperature differential 5°C) - Ambient air 20°C

(3) TGZ DC = DC Brushless tangential fan

(4) Sound levels tested in anechoic chamber and referring to units for 2-pipe systems. The sound pressure level refers to 1 m from the external surface of the unit operating in the open field

accessories

KJR90X	KJR-90D electronic room control for wall installation
KJR150X	Indoor units' group controller
CCM30BX	Touch-key indoor units' centralized controller
CCM09	Wired centraliser with weekly scheduler

CCM-180A/WS	Central controller for wall mounting weekly timer 6.2"
CCM-270A/WS	Central controller for wall mounting weekly timer 10.1"

Accessories whose code ends with "X" are supplied separately

For compatibility between the various accessories, please refer to the dedicated Technical Bulletin or our website in the Systems and Products section.

SAHU

Air conditioning unit

By water

Uncased horizontal and vertical indoor installation

Ductable

**Air flow rate from 420 to 4200 l/s
(from 1500 to 15000 m³/h)**compliant
ErP

- ✓ available in version for 2 and 4-pipe systems with or without on-board control;
- ✓ available in direct expansion version for connection to Clivet VRF and mini VRF systems;
- ✓ standard with self-bearing sandwich paneling thickness 40mm;
- ✓ centrifugal fans with belt / pulley transmission and IE2 type with inverter, IE3 engines settable at high pressure for air distribution through ducting;
- ✓ settable with EC plug fans (IE4) with high pressure (standard with on-board control);
- ✓ 4 or 6 row water coil or 4-row direct expansion coil;
- ✓ wide choice of accessories (mixing chamber, filters, bases, antivibration mounts, etc);
- ✓ electric heater section with different power;
- ✓ Remote and centralized system monitoring through INTELLIAIR

Air conditioning unit

For the air treatment

With modular sections

Indoor and outdoor installation

Air flow rate from 350 to 44400 l/s
(from 1260 to 160000 m³/h)

- ✓ two types of structure and panelling, 50 mm and 60 mm, which allow thermal break classes T2/TB3 and T2/TB2 to be achieved;
- ✓ 32 standard sizes with continuous air flow coverage at frontal speed of 2.2 to 2.5m/s;
- ✓ customisation of the dimensions in height and width with a 50 mm pitch to meet the most stringent architectural constraints.
- ✓ sandwich-type double-sheet panels with injected polyurethane or mineral wool thermal and acoustic insulation in between, thermal cut between the sheets, 50 or 60 mm thick, seven different types of sheet available;
- ✓ modular structure with smooth internal surfaces to minimise dust accumulation and facilitate cleaning and disinfection;
- ✓ for indoor or outdoor installation with protective roof;
- ✓ wide range of air filtration solutions from coarse filters, medium filters with rigid or floppy pockets, absolute, electronic, activated carbon, high and very high efficiency filters;
- ✓ germicidal and virucidal solutions with UV-C lamps or photocatalytic oxidation modules;
- ✓ static, rotary, run-around heat recovery units;
- ✓ water, direct expansion, steam, thermal oil, electric heat exchangers;
- ✓ adiabatic humidification systems, self-generated or network steam, water spray, washers;
- ✓ internal condensate collection tanks with anti-condensate insulation, with inclination towards the discharge, made of aluminium or stainless steel;
- ✓ centrifugal fan sections with belt and pulley drive, plug-fan radial with brushless EC motors, electric fans;
- ✓ without control systems or complete with probes, actuators, wiring, electrical panel with control system and unit management logic;
- ✓ Remote and centralized system monitoring through INTELLIAIR

Clivet participates in the ECP Programme for "Air Handling Units". Check ongoing validity of certificate on www.eurovent-certification.com

selection software

The air handling units selection software allows to size the units and to have immediately the complete technical offer with executive drawings, technical data sheets and list of main components and materials used.

Hygienic air handling units

The AQX H version is available for applications that require high hygienic standards (pharmaceutical, hospital, food and microelectronic sectors). It guarantees maximum cleanliness and ease of maintenance in compliance with DIN 1946-4 and VDI 6022-1 standards. For more details, refer to the dedicated brochure by scanning the following QR code.

accessories

The air treatment units of the AQX series are available with a vast range of accessories that can be selected directly with the selection software.

A few of the most common accessories are listed below:

- ✓ Weatherproof roof and control protection technical compartment;
- ✓ Weatherproof covers on the external air inlets and outlets
- ✓ Safety device for moving components
- ✓ Spotlights and viewing panel for inspection
- ✓ Inverters on the fan motors

Other accessories not found in the basic selection can be assessed on request.

(1) Air passage speed on the heat exchange coils 2.5 m/s

accessories

The air treatment units of the CLA series are available with a vast range of accessories that can be selected directly with the selection software.

A few of the most common accessories are listed below:

- ✓ Weatherproof roof and control protection technical compartment;
- ✓ Weatherproof covers on the external air inlets and outlets
- ✓ Safety device for moving components
- ✓ Spotlights and viewing panel for inspection
- ✓ Inverters on the fan motors

Other accessories not found in the basic selection can be assessed on request.

Control4 NRG

Control4 NRG

Energy assistant for the air conditioning system for Smart Office and commercial & industrial applications

- ✓ It manages up to 24 elements simultaneously
- ✓ Management of scenarios with different operating conditions and related programming bands
- ✓ Class A control according to European standard EN15232
- ✓ Scalable system for potential system expansions and integration of additional appliance control and self-consumption
- ✓ Energy management with power consumption and self-consumption data display
- ✓ Option for remote monitoring and control of systems from a PC or APP
- ✓ Compatible for interfacing with the INTELLIPLANT system

The whole system at your fingertips

Control4 NRG is a centralised supervision and management system for hydronic systems used for cooling, heating, domestic hot water production and air quality control in residential buildings and small businesses.

It enables the centralised management of systems made with compatible Clivet units, intelligently controlling all the system elements in order to obtain optimal comfort with maximum efficiency.

In synergy with renewable energy sources

Control4 NRG guarantees top system performance thanks to the Class A energy classification according to the strictest requirements for energy classification of buildings in compliance with the European standard UNI EN15232 (Energy performance of buildings - Impact of building automation, controls and technical building management).

Check self-consumption levels, and decide when to switch on or off the air conditioning system according to the availability of energy from the photovoltaic system.

In synergy with renewable energy sources

Control4 NRG is designed to integrate with the most advanced renewable energy technologies for a cleaner, more sustainable future.

It captures the energy produced by your photovoltaic system as well as that of your air conditioning system, and displays the energy profiles in a simple and intuitive way.

Comfort and air quality

Control4 NRG manages room comfort both in traditional systems with seasonal reversibility (2-pipe configurations) and in new generation energy saving systems with heat recovery, which provide simultaneous and independent energy production in heating and cooling mode (4-pipe configuration).

Control4 NRG manages room comfort also thanks to the management of air renewal systems, ensuring that healthy environments are kept in line with the most stringent regulatory requirements on the well-being and health of people.

Control4 NRG and Clivet's Zephir renewal units also make it possible to replace the hydronic system mid-season to fulfil the heating requirements, thus ensuring more energy saving.

Ideal for all sectors

The system offers the utmost flexibility of use due to a number of climate zones available in both heating and cooling modes, its integration with substitute energy sources, energy consumption management and remote management from a PC or dedicated APP.

Offices

Shops

Restaurants

Remote control and access

A dedicated APP for accessing the Control4 NRG system remotely, monitoring the operating temperatures and accessing the main system functions from a PC, smartphone or tablet when connected to an Internet network.

Clivet Eye is ideal for all users who want to safely and efficiently manage the comfort of their office or business for the well-being of the people who work there.

HID-TSmart

HID-TSmart evolves the thermostat concept with a new generation device from which you can access all the information you need for efficient room management.

HID-TSmart provides simple, intuitive and immediate access to the system's main operating parameters. Combined with Control4 NRG, with the same device you can acquire different types of information from all the electrical elements in the home such as temperature, humidity, electrical consumption, electricity produced by the photovoltaic system.

INTELLIPLANT

Optimisation system for centralised hydronic systems

INTELLIPLANT is the innovative technological solution designed to optimise the central heating/cooling plant of medium and large capacity systems, ensuring efficiency and reliability in any application, from comfort applications to more complex applications for industrial processes that require continuity of operation under any operating condition.

INTELLIPLANT optimises centralised systems by using the control algorithms of the devices which are involved in the production and distribution of thermal energy, as well as an advanced diagnostics survey engine which makes it possible to determine their state of maintenance.

Control and optimisation

INTELLIPLANT identifies the best activation sequence for units by starting them according to their performance curves, fulfilling the energy requirements of the system with minimum power consumption. INTELLIPLANT also optimises pumping units to ensure the distribution of fluids through the primary and secondary circuits by managing the variable flow-rates while reducing energy consumption.

The benefits from these control strategies are:

- ✓ high system efficiency levels
- ✓ reduction of waste from the over-production of energy
- ✓ better stabilisation of the system with reduced thermal and mechanical stress on the units.

Preventive diagnostics

INTELLIPLANT evolves the concept of maintenance, from conventional scheduled maintenance to "Condition Based Maintenance", i.e. maintenance tailored to each specific system based on its operating status.

The benefits from this model are:

- ✓ reduction of the amount of interventions and field trips
- ✓ better management of maintenance personnel
- ✓ lower maintenance costs
- ✓ reduction of system downtime due to sudden failures
- ✓ increased system productivity
- ✓ longer service life of thermal energy generation and distribution devices.

Energy under control

INTELLIPLANT has dedicated pages and reports to allow the plant's energy consumption to be monitored and controlled, with functions to:

- ✓ analyse and normalise the energy consumption of the devices in the plant
- ✓ identify critical issues and eliminate waste
- ✓ increase the level of comfort
- ✓ increase the continuity of system operation
- ✓ promote activities to increase the overall efficiency of the systems.

Functions and features

Clivet's Cloud-based service offers the option of remotely connecting to the INTELLIPLANT system and accessing its functions from any PC, smartphone and tablet with a web browser, without needing to install a dedicated APP.

System dashboard

Unit dashboard

INTELLIPLANT provides the user with a wide range of graphical pages that combine the most significant plant and unit operating parameters to ensure total control of mechanical systems both locally and remotely.

All of the pages can be viewed on a PC or smart device.

The main pages include:

- ✓ System dashboard, with the most significant general system operating data
- ✓ Unit dashboard, with all the operating variables of the individual units
- ✓ Energy dashboard, with system and individual unit efficiency indices
- ✓ Maintenance dashboard, with operating values of system components and their operating status
- ✓ Commissioning page, to facilitate system start-up and calibration operations.

INTELLIPLANT is a solution for all professionals involved in the design, management and operation of technological systems:

- ✓ HVAC system consultants and designers
- ✓ Building and Facility Managers
- ✓ Energy Managers
- ✓ ESCO
- ✓ Service Managers and maintenance technicians
- ✓ Builders and installers
- ✓ System investors and owners

INTELLIPLANT is a flexible, modular and expandable solution to better meet the most stringent structural, application and installation requirements in full compliance with safety standards and regulations.

INTELLIPLANT acquires in-situ all the information needed to keep the entire system running efficiently, such as temperatures, water flow-rates and operating pressures, right down to the most direct operating parameters of each individual heating/cooling unit.

Heating/cooling units, circulation pumps and source devices.

Range sensors for acquiring operating variables.

INTELLIAIR

INTELLIAIR

Air conditioning supervision system

- ✓ Local and remote visibility via dedicated Cloud platform
- ✓ Ventilation optimisation with air quality acquisition
- ✓ Advanced scheduler for the activation of energy profiles
- ✓ Diagnostic survey system for preventive maintenance management
- ✓ Integration with BMS/BAS for alarm notification and supervision

Focus on comfort

INTELLIAIR is Clivet's specialised solution for the supervision and control of air conditioning systems in all applications where comfort and energy efficiency are paramount. Thanks to the integration with autonomous rooftop air conditioning units, a high level of consumption optimisation in air handling can be achieved while ensuring the utmost comfort in the rooms.

The INTELLIAIR supervision solution is perfect for the:

- ✓ shopping centres
- ✓ multiplex cinemas, theatres, auditoriums
- ✓ commercial premises and areas
- ✓ Ho.Re.Ca sector

The high energy savings with INTELLIAIR are ensured by the automated management of independent areas, through the programming of targeted energy profiles to eliminate inefficiencies that can occur in centralised systems, without sacrificing comfort.

Highly adaptable

INTELLIAIR consists of a pre-wired and pre-assembled hardware and software system inside a control box suitable for installation in a control room or dedicated technical room. A 10" touchscreen panel on the control box allows the operator to consult all pages containing information on the system to be monitored.

Everything under control

Communication between INTELLIAIR, Clivet air conditioning units and field devices is via RS-485 serial line with RTU Modbus communication protocol, which simplifies wiring and ensures long operating distances. Furthermore, communication can be provided based on Ethernet protocol to extend the application range to Clivet units with TCP/IP Modbus communication protocol.

In addition to temperature and humidity control, comfort is even more advanced due to the full integration of high-tech sensors that monitor the air quality index for every single area.

TEMPERATURE

HUMIDITY

CH4

Natural methane gas

dB

Ambient noise

%RH

Relative humidity

°C

Temperature

INTELLIAIR is designed to provide full compatibility with all BMS/BAS, thereby ensuring total transparency when viewing the system even from these systems.

INTELLIAIR provides an intuitive dashboard that easily displays all the information on the system's operating mode on cards that automatically adjust to the size of the screen on the local operator panel and on the remote interface.

Comfort planning

Programming is one of the most important features of INTELLIAIR for automatic system operation. With the scheduler, you can program the right comfort in the different zones of the building throughout the year so as to maintain their comfort independently of the others, thus eliminating the waste and inefficiency that can occur in centralised systems. The main features are:

- ✓ Daily/annual programming of temperature, humidity, CO₂ setpoints
- ✓ Sharing set-points with all the units belonging to that zone
- ✓ Maintenance planning

From an overall view to the individual detail

The main system page provides direct access to the various zones and displays the following main information:

- ✓ operating status of the system and buttons for quick actions
- ✓ percentage and operating mode of single units, by area
- ✓ maintenance status following the preventive analysis of each individual unit
- ✓ priority and second-level alarms
- ✓ current day's weather and forecast for the next 7 days

In detail, the user can access all parameters specific to the area or individual units and their operating parameters.

Percentage and operating mode of single units, by area:

- ✓ 7-day scheduling of units connected to the area
- ✓ display and modification of the room temperature setpoint, relative humidity and air quality
- ✓ alarm status and specific warnings for the area
- ✓ room temperature, relative humidity and air quality trends over the last 12 hours

The following basic information is displayed for each unit:

- ✓ operating mode (heating / cooling / Auto) and performance of the unit
- ✓ operating status (comfort / Eco / off)
- ✓ current temperature, relative humidity and air quality values
- ✓ detailed component status (fans, compressors, etc.)

Clivet Eye

Clivet Eye

Monitoring and diagnostic survey system
for remote management of Clivet units
and systems

Clivet Eye is the monitoring system to remotely control air conditioning, heating, air renewal and hot water production units and systems for both private and professional use.

It is intended for end users and professionals for the control and preventive maintenance of heating and cooling units.

All systems at a glance

With Clivet Eye you can monitor and manage all Clivet systems located in the country, even if they are of different types.

The geographical map of Clivet Eye enables all of the systems to be quickly and constantly monitored in real-time, showing their operating conditions simply and intuitively.

Event notifications promptly warn of any system malfunctions.

Clivet Eye provides a graphic page with the location of the units and identifies their operating status with a “traffic light” system.

This makes it possible to detect the operating status of the units in advance and react promptly to avoid system breakages and shut-downs.

Unit running
No action required on site

Unit offline
Requires verification of
network connection

Non-blocking fault
Requires verification of unit
operating parameters to
preserve system integrity and
operation continuity

Blocking alarm
Requires verification of unit
status to restore correct
operation

Main features

- ✓ Easy control of units / systems via the App and Web Dashboard
- ✓ Prompt signalling of malfunctions through e-mail event notifications
- ✓ Programming of operating conditions through time schedules (switch-on, switch-off, changing operating set points)
- ✓ In-depth remote analyses and reset of small alarms reducing the need for on-site intervention
- ✓ Faster and more effective interventions due to prompt signalling of malfunctions via e-mail
- ✓ Analysis of the history of operating conditions
- ✓ Verification of electric and power consumption of individual units (check compatibility with individual unit model)
- ✓ Calculation of efficiencies of individual units (check compatibility with individual unit model)
- ✓ Air quality analysis (available for roof top units fitted with air quality sensors)

Advanced functions

Performance monitoring

Clivet Eye acquires the electric energy and consumption values of individual units and makes them available in graphic format on simple and intuitive interfaces.

In the desktop version, Clivet Eye also calculates the efficiency of the unit accurately, thereby allowing professionals to carry out diagnostic surveys based on actual performance conditions measured in real time.

Air quality index

Clivet Eye acquires the air quality values of air-conditioned rooms by means of Clivet roof top units.

The graphic interface displays the following values:

- ✓ temperature and humidity
- ✓ VOC index
- ✓ carbon dioxide (CO₂)
- ✓ carbon monoxide (CO)
- ✓ methane (CH₄)
- ✓ nitrogen dioxide (NO₂)
- ✓ ambient noise level (dB)

All values measured are available in real time and in chart format with the trend of changes over time.

Connectable Units

Hydronic units for chilled and hot water production, 4-pipe multifunctional units, dedicated heat pumps for high temperature hot water production

Roof top for the air conditioning of medium- and high-crowded buildings.
Independent primary air unit

Air handling unit

Who needs Clivet Eye?

Clivet Eye is intended for end users, facility managers, service centres and system managers in general who need to monitor the system remotely.

END USERS

SYSTEM MANAGERS
