

## SPECIALIZED TRAININGS

## 2021 TRAINING PROGRAM

### 2nd semester

**AIR CONDITIONING  
AND AIR QUALITY  
PARTNER**

## TODAY KNOWLEDGE HAS POWER

IT CONTROLS ACCESS  
TO OPPORTUNITY AND  
ADVANCEMENT.

(PETER DRUCKER)

Clivet works for sustainable air-conditioning, offering quality, comfort and energy saving. In line with this view Clivet wish to share its know-how through dedicated trainings for designers, architects, installers, retailers, service centers and maintenance technicians.

Visit Clivet website [www.clivet.com](http://www.clivet.com) to see the complete training offer.

## CLIVET UNIVERSITY

Clivet University offers different training programs at different theoretical and practical levels, ranging from specific topics of air-conditioning and its regulations, to technologies and installation solutions.

In the dedicated training Area it is possible to practice the installation, start-up and maintenance of Clivet systems.

In the different climate rooms, the operation of the air-conditioning units can be simulated at real temperature and humidity conditions.

With its 50.000 square meters the production plant itself and a dedicated and innovative show-room represent integral part of the training programs.

Together with a certificate of attendance at CLIVET UNIVERSITY training, the trainees may gain specific educational course credits, whenever this is set out in their own Country.

## Basic information

### Training offer: Seminars and Webinars (free)

The programs of the various courses are available on the website [www.clivet.com/university](http://www.clivet.com/university).

#### Target

Seminars and Webinars are reserved for Clivet Sales Network, Architects and Designers.

#### Registration

To register for a seminar you must fill in the online form available on the website [www.clivet.com/university](http://www.clivet.com/university). Registration closes 3 working days before each training session.

Following the participation request, a confirmation e-mail will be sent. The dates may vary according to organizational needs. Always refer to [www.clivet.com/university](http://www.clivet.com/university) website for the updated calendar.

Any changes will be communicated by e-mail to all registered students.

#### Location and time

Due to the Covid-19 health emergency, face-to-face courses of the first half of the year canceled to ensure total safety for participants.

Clivet University is still **active** ONLINE!

We provide you with a virtual classroom, in which our teachers will hold the courses and you will be able to talk with them and learn more about the practical aspects that arise on the field.

At the end of July we will make available the programming of the second half, with the hope of resuming the courses face-to-face.

#### Costs

Participation in Seminars and Webinars is free.

## Seminars and Webinars

	Code	Duration	Cost	Language	Credits	Location	Order of Eng.
<b>SEMINARS for Architects and Designers</b>							
Health and air quality IAQ with presentation of a redevelopment project	S071	4 hours	free	IT	Certificate + Credits	online	AiCARR
Health and air quality IAQ: regulatory and installations development	S07	4 hours	free	IT	Certificate + Credits	online	Trento
Regulatory and energy developments in air conditioning	S10	4 hours	free	IT	Certificate + Credits	online	Palermo
	S10	4 hours	free	IT	Certificate + Credits	online	Ancona
<b>Technical Focus only for Export Sales</b>
